Professional Experience

PT. Amarta Mikro Fintek, Jakarta

June 2022 — Present

Senior Technical Product Manager - Core Operations Platform

Oversee the management and optimization of our internal web back-office platform, NGMIS (Next Gen Management Information System). Successfully developed NGMIS from the ground up, transforming it into an indispensable tool for various operational teams, including funding, lending, customer experience, human resources, finance, and accounting. Enhanced daily operations such as loan monitoring, submission, disbursement, repayment, and product configurations, significantly improving efficiency by achieving from 2-3 days SLA into minutes. Achieved a remarkable reduction in data patching by 88.78%, decreasing the monthly average from 125,567 data points to approximately 14,085, thereby streamlining processes and enhancing data integrity. Managed and maintained the T24 Temenos Core Banking system, providing robust support for Amarta's P2P lending product, implemented key modules such as customer & account, loans, funds transfer, limit/facility, accounting report, lender and borrower portfolio. Played a pivotal role in ensuring seamless operations and delivering a superior banking experience to both lenders and borrowers. Disburse 60 - 110 bio rupiah average per month, manage 19 - 21 million transactions core banking API hit per day

INFT Singapore Pte.Ltd, Singapore

November 2021 — June 2022

Product and Project Delivery Manager

Successfully transformed customer challenges into actionable user stories, effectively prioritizing and organizing them within the product backlog to optimize development workflows. Streamlined production processes to provide the development team with clear guidance on upcoming tasks, resulting in a 30% increase in project delivery efficiency. Achieved a consistent monthly growth in new active users, ranging from 2-5% per month. Led all Agile and Scrum meetings to ensure development efforts were fully aligned with the strategic roadmap set by senior management, including the CTO and Product Owner. Served as the voice of the customer, effectively communicating their needs and feedback to the development team. Delivered valuable insights and feedback on the validated roadmap to the CTO and Product Owner, ensuring continuous alignment with customer expectations and business objectives.

PT. Adiwisista Finansial Teknologi, Jakarta
Product and Development Assistant Manager

April 2018 — November 2021

Developed and designed product launches by identifying value propositions and crafting tactical marketing strategies, including campaign ideation, to ensure effective utilization of various marketing channels. Lead project and development collaborations with IT, UI/UX, Operations, and other departments, ensuring all initiatives stayed within budget and met timelines. Coordinated with relevant stakeholders to ensure clear communication of process flows and briefs. Monitored results and conducted post-event analyses to ensure strategies were executed effectively and aligned with business objectives. Established partnerships with third-party vendors and service providers, including banks, payment gateways, cloud services, and e-KYC services.

PT. Bank QNB Indonesia, Jakarta
